

To New Students in 2026

(First Year Graduate School, Showa District)

Congratulations on entering the university!

The Health Support Center will make various communications through the administrative system and the university Gmail.

Be sure to check the administrative system announcements and the university Gmail.

In addition, information on how to use, how to notify, and how to inquire is posted on the website and X.

About the Health Questionnaire

Be sure to answer the questionnaire by going to "Administrative System"

→ "Log in with the university authentication account"

→ "Medical checkup appointment"

→ "Health Questionnaire."

You do not need to make a medical checkup appointment.

*You do not need to take the Regular Student Health Checkup if you plan to have a complete medical checkup or a health checkup at your workplace. (Please answer the health questionnaire.)

About the Regular Student Health Checkup

1) 2026 Regular Student Health Checkup Schedule (back side of paper)

2) Handouts for medical examinations

① Student Annual Health checkup Form

② Urine containers Please collect early morning urine and bring it with you. (Please write your student number and name in both the "name" column on the outer bag and the "name and name of business" column on the sticker.)

① Please collect ② at the following locations and prepare it in advance.

[Showa Campus] Students and Student Support Section, Academic Affairs Division, Showa District Office

[Aramaki Campus] Health Support Center

3) Medical examination site: Health Support Center and Main Building

4) Medical examination items:

•Body measurements •blood pressure measurement •Urinalysis •internal medical examination •chest X-ray

5) Notes on taking medical examinations: Written on the back of the Student Annual Health checkup Form

(please read carefully before taking the examination)

6) Medical examination results: You can check them from mid-May through the Education System.

*Medical examination certificates and medical examination certificates cannot be issued without a medical examination.
